*Evaluate the strengths of your project.

Analyze your project and share those aspects you have found to be the most successful and why. How were the strengths of your team utilized to address the needs of the project?

(Text box—500 character limit)

*Evaluate the challenges of your project.

Facing challenges during project execution is a natural part of planning and course adjustments. Please describe the challenges that surfaced during your project and how your team adjusted for the issue. How did this affect the ultimate outcomes (enhance or hinder)? What best practices or recommendations would you share with another team doing this work?

(Text box—750 character limit)

*Describe how your project participants were empowered using measurable outputs and outcomes to explain.

(Text box—1,000 character limit)
